Mr. Geo. P. Luckhardt, of the Oregon Nurseries, has sold 10,000 fruit trees this spring. His stock is an excellent one.

T. C. Dungan, Esq., has been presented with a "cheer" by members of the Ladies Union. Only one, because they thought themselves unnecessary now.

Laid Over.

We have received several communications which for want of room had to be laid over till next week.

For Sale.

The undersigned, desirous of changing his business, offers for sale the undivided half interest in the Mound City Mills. Persons having a little means and being desirous to establish themselves in a business of this kind, will not find a better location than this for the purpose.

The principle reason I have for selling is my bodily infirmities incapacitate me from performing the necessary labor involved, with any degree of satisfaction.

Or JAMES SCOTT, Land Agent, Oregon, Mo. Wm. HAWKINS, 44m2 Mound City, Mo.

In 1852—half a generation ago, the Charter Oak was presented, and it has been improved several times since. Instead of having been "played out," and been consigned to the lumber-room of worthless humbugs, it has gained such a popularity that the demand can hardly be supplied by the Excelsior Manufacturing Company, by which they are made.

State Sunday School Convention.

The Seventh Annual Session of this body at Warrensburg, Mo., May 7th and 8th, bids fair to secure a large attendance. Arrangements are being made with the Railroads of the State to return delegates at reduced fare.

Manhood! Womanhood!

Who may marry who not. Why? Impediments, causes and cure; 108 pages sent sealed for 25 cents. Address, D. Whittier, 617 St. Charles Street, St. Louis, Mo., who treats all Chronic, virulent and special diseases.

The most successful specialist of the age.

The Fruit Crop.

The prospects for an abundant fruit crop were never better at this season of the year. The cherries and peaches are now in full bloom, and the apple trees are full of buds. Although the severe cold of the past winter has killed a good many peach trees, yet there are enough left for a good crop. The prospects for a good crop of small fruits are also favorable.

Graded Cattle at the Next Fair.

The Committee on premiums to be awarded at our next Fair have agreed on a graded cattle ring. Premiums are to be offered for graded cows and heifers. This is a much needed improvement over the old mode, and will add very much to the interest in our next Fair, which is to be held on the 3d, 4th, 5th and 6th days of September next.

Internal Revenue Notice!

Notice is hereby given that I will hear and determine appeals in my office at Kansas City, Mo., for a period of six days, beginning on the

SIXTH DAY OF MAY. And ending May 11th, 1872, upon all erroneous or excessive valuations, assessments or enumerations of the Annual List of 1872, for the Sixth Collection District of Missouri, as provided by Section 19, Internal Revenue Law.

JOSHUA THORNE,

Assessor Sixth District of Mo.

Oregon School Items.

The present term of the Oregon Grade School will expire with this week.

The Board of Education has made a levy of \$30 cts. per hundred dollars on the assessed value of all property in this district, for school purposes, for the year commencing October 1st, 1872.

An Important Invention.

A company has been formed in Kansas City, recently, to manufacture a machine which will prove immensely useful to farmers. It is a cast-iron one-horse power with attachments for reaping and binding grain, corn, cotton, ginseng, and meat sawing, etc.

This differs from the thousand machines used by the farmers in that it can be used all the year round, while other are used a few days a month and then laid aside for a whole year. The greatest attraction is, that the whole contrivance can be set up for about the cost of an ordinary reaper.

It is the simplest machine ever made, the power having it in itself, while the self-raking reaper, the mower, corn sheller, etc., are equally simple. It has been thoroughly tested in the field and the test of testimonial can be furnished.

Wanderer.

In wandering over the country, now that Spring time has come at last, I everywhere see the farmers busily engaged plowing the plow and driving the hoe, which if they persist in doing with that degree of patience characteristic of their profession, they will be able most effectively to kill the soil and cultivate the weeds, thus insuring them, at the close of their campaign, a remunerative crop of Murphies. I don't mean Harvey Murphy's, but the veritable elephant. But speaking of Harvey Murphy, he puts me in mind of the fact that he keeps on hand a well assorted supply of Clothing and Outfitting Goods, and he can turn out a ragged man looking the sleekest, for the least amount of greenbacks, of any man west of the Nodaway River. If you don't believe it just go and try it on.

Personal.

Dr. Gibson will be absent from town for the next two or three weeks, on business connected with his profession.

Mr. Robert Coleman, formerly a resident of this city, but now of Fort Zarah, Barton county, Kansas, was in town last week. He represents the part of Kansas he resides in as delightful in the extreme.

—Lucchard's great Nursery is the most frequented spot in Holt county. Scarce a day passes but wagon loads of young fruit and shade trees are hauled away.

Personal.

Dr. Gibson will be absent from town for the next two or three weeks, on business connected with his profession.
